[ ] Childcare

Hello to everyone! I would like to work as a nanny doing all this things. Create a stimulating, nurturing, and safe environment for the children Supervise the children's activities at all times Plan and prepare meals and bottles for, and feed, the children Dress the children Place the children down for naps and bedtime Bathe the children Change diapers Perform housework related to child care, including washing the children's clothes, cleaning up after meals, tidying play areas, Play with the children, both indoors and outdoors Plan and lead educational activities, including reading, with the children Discipline the children, ( according the parents rules) Administer medicine to the children .i have a degree in medicine but coming from east i do do not have the right to exircise my profession! I am a very responsible and caring person, honest and very correct! I am a mother by my self so i can understand the responsibility of taking care of a child .if u find my description that fits with your profile of the person who u would like to take care of your child please contact me.
