

Nounou for our littler daughter

[] Job offers

Hi, starting from 9th December, we're looking for a native English speaking babysitter to take care of our daughter Letizia. She is 2 years old. We need help to bring her to the nursery in the morning (8:00 am to 9:30 am) and to pick her up at the nursery at around 4.30 pm and then stay with her until 7.30 pm (dinner preparation included). Letizia is a very curious little girl, she loves playing outside and with people. Past experiences and empathy for children are greatly appreciated! We need a person who wants to work with us for a long period. we want to give our daughter a single stable person who can really take care of her. If you are interested, send me a message / email, we are looking forward to meeting you!
