

Singing lessons - all abilities with Laura

[] Tutoring and education courses

Do you want to improve confidence, find out how your voice works, learn repertoire and develop your technique? Well you've come to the right place! I have been a professional touring singer with 'Mia and the Moon' for 12 years+ and have been teaching singers of all levels since 2012. I have studied the Estill method as well as Speech level singing, musical theatre, pop/commercial style and have formed my own unique style of coaching which consistently builds the confidence and skill set of my students. I cater to all ability levels and welcome absolute beginners. During lessons, we study anatomy, warm-ups, exercises, placement, repertoire and then stage confidence and putting all of the skills learned into songs and performance. My style is relaxed yet very informative and I aim for a student to see results quickly - but to enjoy the lessons enough to want to continue over a period of time. I also offer club nights, studio days and various workshops alongside one to one coaching. I offer lessons for any age.
