

## **NANNY / CHILD CARE / AU PAIR**

[ ] Childcare

Dear parents and children, I am currently residing in Luxembourg and interested in live-in nanny position. I am a moving and friendly woman with a BA in Finance, accounting and banking. I speak English and Czech language since living and working in Prague for 5 years. My work experience is rich, mostly working in international companies in Belgrade and abroad, also teaching English. All this taught me responsibility, reliability and to respect diversity. I have completed courses in Child Development from Birth to 12 years and Supporting Children's Transition to School - both certificates are issued by UK Online Learning College. Previously working in Luxembourg - 3 children, Bonn - Germany with family of 4 children, also Live-In in Belgium with lovely family of 3 children. Love children and being happy of becoming part of their lives, growing up, education and upbringing. Like to spend time with them, go out and explore. Love animals, so if you have pets will be glad to help. I am interested in healthy lifestyle and food. Good driver with long experience. Looking to work in partnership with family and take responsibility for the safety and development of their children. I am looking forward to answer all of your questions! Kind Regards, Marta
