

Experienced babysitter wanted

[] Job offers

I am looking for an experienced babysitter to keep my 3 year old son busy in the mornings-lunch time while me and husband working from home. Is important to have first aid courses completed as he has food allergies and we carry epipen where we go. We live in Strassen and we are looking for a 5 hour per day agreement. I speak only English but preferably would like to speak French to him as he has started to forget the French he learnt at creche
