

Voice Coach / Singing Coach

[] Tutoring and education courses

Each voice is unique and entirely different to another persons voice. To understand what you can do with your voice means exercising it like you would exercise when you swim, run, walk or play sport, yoga, pilates or any other form of physical exercise. I start with each voice and work to better understand and develop your voice. In your professional life, it is highly likely that you will encounter at least one or more of the following scenarios? Speaking in public Pitching your products or services Addressing colleagues, clients or employees Using the telephone to get a key appointment Delivering training to a group Presenting to peers or management If you wish to sing I will help you to manage your - Breathing, Pitch, Tone, Volume, Posture, Vocal Health and developing your repertoire. We also offer you the opportunity to undertake exams if you wish to gain a voice qualification or attain a certain standard. All ages welcome You can contact me on +352 691 727 156 or hello@johnjnorton.com or Facebook - John Norton Voice Studio or Skype: " jjnorty"
