

# Polish for children and adults

[ ] Tutoring and education courses

Would you like to learn Polish? If so, I am inviting you and everyone who wants to learn this language – both children and adults. I am offering lessons in Polish as a foreign or as a second language. I have 30 years of experience in teaching children, adolescents and adults, which I gained in Poland, the Netherlands and Luxembourg. Previously I taught primary school in Poland. In the Netherlands I organized various types of integration projects for children and parents staying in the country of tulips and I organised and provided activities and Polish language lessons in Saturday schools. Currently, I am a teacher in Polish as a mother tongue in an European School and a teacher of Polish as a foreign and second language for foreigners at all levels of education. I use methods that develop communication, grammar, speaking and writing skills using a variety of techniques based mainly on games and play. Lessons are adapted to the level of the learner. I conduct classes preparing for the B1, B2, C1, C2 certificate exams. Lessons are conducted individually or in groups. Prices for lessons (60 minutes) are set individually, with 5% discount for a package of 15 lessons. A start-up lesson lasts 90 minutes. Location: - online - at the customer's premises - (possibly) at my apartment I cordially invite you. Anna P.S. References are available upon request.
