Nanny looking for lovely a family

[] Childcare

Dear loving Family, I am from Philippines currently aupair here in the Netherlands where my main task is to cook and look after the kids ages 3 and 8 my contact will be end by first week of January and I am willing to join in your family by December. I am the Eldest daughter among of 5, I have two brothers and two sister so it is expected from me to do mostly of the household activities and to help preparing/cooking some dishes. I can be a good sister and a good role model to your kids. When it comes to childcare experience, I have helped my parents look after my younger siblings even my younger cousins, up to my nephew's and nieces. I spent morethan a year being a helper to my Aunt with 6 children, two toodler (1 and 3 years old), twin girls (7years old), and two boys(teenagers) and now being an Aupair with two kids ages 3 and 8. Most of my time are spent with kids especially after school. Playing with them, doing some activities both indoor/outdoor depending on the weather, I change the diaper, bathing, walking outside, and whenever their mother had some important errands I was the one taking care of them. I do household chores if kids are in a nap or at school. My daily routine is quite more with kids, dressing them up, giving milk and/or food, reading books, doing puzzle or other educational toys, playing outside when weather is nice or going to an indoor playground sometimes. I indeed had a great experience with kids. I've found out and realized how much fun it is to have children around. I find it fulfilling as it gives me the satisfaction of helping out a family. I have big heart for kids, I am dedicated, I am kind and responsible, I have initiative especially doing household chores and I can assure You can trust me, I have eagerness to learn and to adjust in different situations, I am very committed to my tasks but I know how to admit mistakes and accepts criticism to improve my skills and performance. I hope we can develop a good relationship, working and living together as a family. I assure you that you can rely everything to me, I will treat your kids as my own family, I will handle them with love and care, your kids will be safe with me and I will give my very best to help you and your family. Im looking forward for your possitive response. Thank you and God bless!. Lochie.
