Support with childcare for my 7, 9 & 12 year olds

[] Childcare

We are looking for a fun & friendly person to help us with our kids. We are moving to Wormeldange in early March. The kids are at school in Lux City. We are after help after school and in the holidays. There are also a few weeks a year we will need extra help, including collecting them from school and bringing them home. If you can't drive but you are the right person, we can also make it work without needing to collect them. We have one daughter who loves football and would love someone to play with. Another who loves football and lego, and any kind of building. Our oldest daughter is artistic and loves drama. We can be flexible on timings and days, especially for the right person who gets on well with our family. The most important part for me is for the kids to have fun with someone after school! In the past a young person has worked well, someone who is willing to play football and other games with them.
