

Aupair looking for a host family

[] Childcare

Hope you and your family are doing great am interested to become your next Au Pair because I love children and enjoy spending time with them. But, let me introduce myself first. My name is Witney Kemunto. I am 25 years old and am Working as a cook at a Local hotel In Nairobi City. I don't have kids, but I love kids and pets. I have a dog. I also have 2 nephews and many young cousins because am the eldest Grand daughter of my Grandparents family that's why I love kids so much. I often babysit and spend time with them everytime I come home during day offs or holidays and I after high school I had to work as a nanny for 4 years taking care of children under 14 years (2,7,14) Right now, I am living with my aunt, since am working here in the city. I have been living with my family. I supported my family as well, from my little earnings. I am prepared and I am well aware of the fact that being like a big sister for your children comes along with responsibilities for them and it will not always be just play and fun. I would describe myself as an open-minded, hard-working, easy going, dedicated and responsible person. I might be shy and a little reserved at first, but that is not something that bothers me at all, I am very flexible. For me, safety, health and happiness of children are most important. The reasons why I wanted to be an au pair are the following: - to experience the culture of the other countries of Europe - to live more independently, explore and try new things - learning more about life from another perspective which is beyond my comfort zone The memories that I might acquire if given a chance to be chosen as your au pair, are the memories that I will treasure forever. Learning more about life from another perspective which is beyond my comfort zone. And these memories will be treasured forever. Thank you so much for reading this letter. love regards Witney ????
