Looking for a hosting family as an au pair

[] Childcare

Hello, I am Silvia from Kenya and l am 26 years old. I have no experience as an au pair but it has always been my interest. As a firstborn, I have seen my sibling growing and it made me responsible around him. I am loving and caring. Love being around people and I ensure cleaningness comes first. I enjoy the company of children and the old around me as it is a form of grown to me to share with them my kindness and love. Also it's my interest to share other peoples culture as l also get a chance to learn and experience other cultures. Am open to growth all rounded. It will be an honour to get another family and another place I can as well call home.
