Daily part-time nanny

[] Childcare

I am an experienced and creative nanny looking for a declared part-time position ideally in South Luxembourg. I was working for various bilingual families in London, children from age 1 until 10 years old. I am specialized in arts and crafts and will plan educational activities to promote your children's development. I am lively, have a playful personality and a good sense of humor. My priority number one is to maintain a constant safety for the children and care for their well-being. I am willing to do little housekeeping in regards to the children, transport them to activities and other appointments. I am a driver and non-smoker. Excellent references available.
